

Joseph Weinschenk, III, class of 1979, earned both a Bachelor of Science Degree in Chemistry and a Masters of Science Degree in Organic Chemistry from Pennsylvania State University in 1983. Joseph earned a doctorate in Organic Chemistry from the University of Arizona in 1987. He is currently the Technology Transfer Manager, Intraocular Lens Research & Development at Alcon Laboratories.

Dr. Weinschenk has over 27 years of experience in the research and development of ophthalmic devices, both directly and through leadership of research groups and project teams. Throughout his career, Dr. Weinschenk has been active in the creation of new device concepts, the research to bring new devices to life and the development of processes to manufacture new devices. In addition, he has lead team activities to ensure clinical supply generation for worldwide intraocular lens clinical studies.

Dr. Weinschenk has been the lead inventor or co-inventor of 26 U.S. Patents and 5 U.S. Patent applications. He has given back to the profession with contributing 14 publications addressing intraocular devices. Dr. Weinschenk is a member of the American Chemical Society.

Joseph lives in Fort Worth, Texas, with his wife Deborah and has three children, Danielle, Alyssa and Joseph.
